Low Voltage Directive 2006/95/EC:

I certify that the product identified above conforms to the requirements of the [Low Voltage Directive 2006/95/EC](#) and the Waste from Electrical and Electronic Equipment Directive 2002/96/EC RoHS.

European Commission Regulation (EC) 1275/2008:

JBL Professional, part of the Harman International group of companies, declares that the products produced under the aforementioned brand names are designed and produced as professional audio speakers and therefore outside of the intended scope of the [European Commission Regulation \(EC\) 1275/2008](#) of 17 December 2008 implementing Directive 2005/32/EC of the European Parliament and of the Council with regard to ecodesign requirements for standby and off mode electric power consumption of electrical and electronic household and office equipment.

Suppliers and business partners:

Harman International expects our suppliers and business partners to be aware of their obligations under [REACH](#) and expects any substances or products within the scope of REACH to be pre-registered before December 1, 2008. The product identified above meet REACH requirements for chemicals designated by the European Chemicals Agency (ECHA) as Substances of Very High Concern (SVHC). Our current products are exempt from REACH pre-registration and later registration activities. We provide separate E.U. Reduction of Hazardous Substances documentation for our RoHS compliant products. None of the products listed above have SVHC's over the 0.1% threshold for any chemical on the Candidate list.

WEEE Directive (2002/96/EC):

The [WEEE directive \(2002/96/EC\)](#) places an obligation on all EU-based manufacturers and importers to take back electronic products at the end of their useful life. JBL, through it's agent, accepts its responsibility to finance the cost of treatment and recovery of redundant WEEE in accordance with the specific WEEE recycling requirements. All of our products are marked with the WEEE symbol; this indicates that this product must NOT be disposed of with other waste. Instead it is the user's responsibility to dispose of their waste electrical and electronic equipment by handing it over to an approved re-processor, or by returning it to JBL's agent for reprocessing. For more information about where you can send your waste equipment for recycling, please contact your local distributor.
