VRX900

Raise and Lower the Speaker with Ease!

The JBLPOLE-GA is the easiest speaker stand to use thanks to the internal pneumatic shock that literally raises the speaker for you. The stand's internal shock easily raises speakers weighing 35 lbs and less with no effort from the user. And, the JBLPOLE-GA requires very little effort from the end user to raise speakers weighing more than 35 lbs. When you're ready to lower the speaker, we've provided a convenient and ergonomic hand grip from which you can lower the speaker – with just one hand. There's never been an easier, more convenient, or safer way to set up and tear down speakers.

Strong and Easy-to-Use "Z" knob

The JBLPOLE-GA features an amazing height adjustment collar that features an ergonomic "Z" knob that provides comfortable adjustment. The strongest fitting made, the height adjustment collar prevents over-tightening and breakage issues associated with all plastic designs. Plus, the die-cast zinc fitting is 30x stronger than ABS or Nylon plastic used by the competition.

Incredibly Sturdy Pole

JBLPOLE-GA is manufactured out of extruded double-drawn 6000 Series aluminum tubing, which makes them incredibly strong but surprisingly light.

M20 Threaded Pole Mount

JBLPOLE-GA features an M20x2.5mm male threaded end. Threaded sockets found on JBL subwoofers minimizes buzzing and rattling and assures that the pole will be secure and straight. Fits all JBL EON, PRX, STX, and VTX subwoofers.

Ergonomic handle provides built-in grip to guide the raising and lowering of the speaker.

Metal die-cast collars eliminate over-tightening and breakage issues associated with all twist-tighten plastic designs.

M20 thread socket. For use with all JBL EON, PRX, STX, and VTX subwoofers.
