JBL EVO SYSTEM INSTALLED IN LENTOS MUSEUM

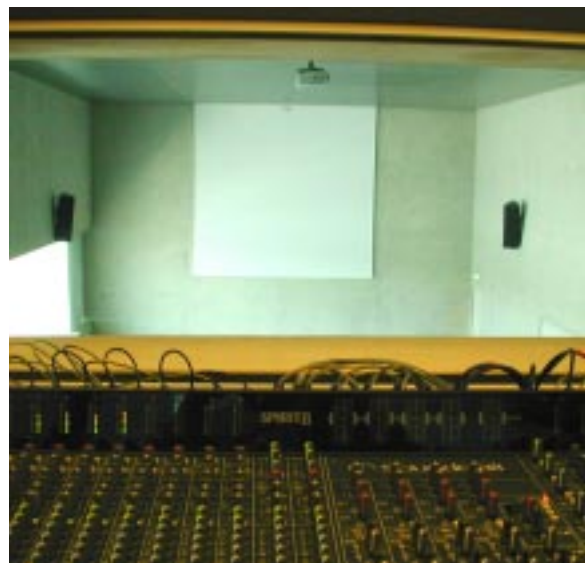

LINZ, AUSTRIA – JUNE 2, 2003 – PKE Linz recently completed the installation of a JBL EVO™ system in the Lentos Museum of Modern Art. The museum is located on the banks of the Danube in Austria's second largest city, Linz.

The structure, created by the Zurich architects Weber & Hofer, provides Linz with a new museum of modern art of international status. The Lentos Museum houses collections from artists such as Klimt, Kokoschka and Schiele. The building's appearance, with 8000 sq. meters of usable floor space over three floors, is remarkable for its transparent glass casing, especially attractive when lit at night.

The spectacular glass exterior of the Lentos Museum.

PKE Linz, in conjunction with local distributor Kain Audio-Technik, selected a JBL EVO system for the prestigious venue's 300-person auditorium. "We recently installed an EVO system in the Leopold Museum in Vienna, with exceptional results," commented Franz Werner of Kain Audio. "Again we were faced with a similar problem: a multipurpose system in an acoustically challenging room. EVO enabled us to set the system for optimum performance. In addition, the aesthetics of the enclosures suit the prestigious environment. Everyone is very pleased with the result."

JBL EVO speakers installed in Lentos Museum Auditorium.

“It really does appear that Kain Audio have found a perfect application for this product. I am extremely pleased with the continued successes EVO is enjoying in high-profile installations,” said Simon Jones, European Marketing Director for JBL Professional.

Headquartered in Northridge, California, JBL Professional is the world’s leading designer, manufacturer, and marketer of professional loudspeakers for recording and broadcast, musician, cinema, touring sound, commercial sound and contracting applications. JBL Professional is part of the Harman International network of professional and consumer audio companies. For complete product and company information, go to the JBL Pro website at www.jblpro.com.
