### **JBL PROFESSIONAL PROMOTES KAMLET TO SENIOR DIRECTOR, INSTALLED SOUND POSITION**

NORTHRIDGE, CA - APRIL 20, 2001 - JBL Professional has announced the promotion of Rick Kamlet to the position of Senior Director, Installed Sound Marketing. In this new capacity, Rick will handle the combined vertical market responsibilities for both the Engineered Sound and the Commercial Sound segments of the Installed Sound Contracting market.

“Rick has demonstrated an outstanding thoroughness in his approach to developing both the product and the marketing for JBL Professional Commercial Sound offerings,” stated Mark Gander, Vice President, Marketing. “The success of the Control Contractor and Soundzone programs is a testament to his and his team’s hard work, focus and understanding of the business.”

Rick Kamlet has been with JBL Professional for ten years, having held positions of Senior Product Manager for a number of vertical markets as well as Director of Commercial Sound for the past 3 years. His roles prior to joining JBL included Director of Engineering, Director of Technical Services and National Sales Manager for a number of professional audio manufacturers, most of whom are focused on the contractor marketplace.

“JBL is one of the great names in professional audio systems with a rich history that spans over 50 years. I look forward to the opportunity of directing JBL Professional’s continuing growth in the installed sound marketplace and further increasing JBL’s value to our fixed installation customers,” commented Kamlet on his new position.

With the addition of the other segments of the Installed Sound Contracting loudspeaker business, Kamlet will now coordinate JBL Professional’s overall marketing activities to the sound contracting community. This includes several JBL Professional product lines including Control and Control Contractor, Venue, Sound Power, and Marquis Series as well as the new EVO Intelligent Loudspeaker Systems.

Headquartered in Northridge, California, JBL Professional is the world’s leading designer, manufacturer, and marketer of professional loudspeakers for recording and broadcast, musician, cinema, touring sound, commercial sound and contracting applications. JBL Professional is part of the Harman International network of professional and consumer audio companies. For complete product and company information, go to the JBL Pro website at [www.jblpro.com](http://www.jblpro.com).
