EON® 500 SERIES
THE TOUGHEST, SMARTEST AND MOST IMPRESSIVE EON EVER

The EON 500 Series was engineered for durability, high performance and ease of use. Featuring three models which deliver more power, portability and versatility than any other speaker in its class, JBL has raised the bar dramatically for advanced powered loudspeaker systems while retaining the signature JBL sound.

EON510
TWO-WAY 10" POWERED LOUDSPEAKER SYSTEM
The EON510 is a lightweight loudspeaker system capable of full bandwidth reproduction at high levels. The EON510 is comprised of a 10-inch JBL Differential Drive woofer and a 1-inch neodymium high frequency compression driver. Both components are driven by a 280W Class-D integrated power amplifier combined with the utility of a 3 channel built-in mixer.

- 280 watt powered system with 560 watt peak power rating
- 100(H) x 60(V) waveguide for uniform audience coverage
- 3 channel built-in mixer with XLR & 1/4" inputs
- Integrated M10 suspension points for easy rigging

EON515XT
TWO-WAY 15" POWERED LOUDSPEAKER SYSTEM
The EON515XT was engineered for durability, high performance and ease of use. We’ve extended the reach of the current EON technology by improving input sensitivity, lowering the noise floor, adding user selectable EQ control and an integrated 3 channel mixer. Put it all together and the EON515XT is the toughest, smartest and most impressive EON ever.

- 625 watt powered 15" two-way speaker system
- 100(H) x 60(V) waveguide for uniform audience coverage
- 3 channel built-in mixer with XLR & 1/4" inputs
- Integrated M10 suspension points for easy rigging

EON518S
18" POWERED SUBWDOFER SYSTEM
The EON518S is an 18-inch direct radiating high performance powered compact subwoofer system designed to extend low frequency performance of any EON system. It also offers the convenience of an integrated crossover and stereo loop-thru capability.

- 500 watt powered system with 1000 watt peak power rating
- Stereo loop-thru capability with integrated user selectable HPF
- Balanced XLR inputs
- 36mm pole socket on top
EON®300 SERIES
THE AFFORDABLE PA FOR EVERYONE EVERYWHERE

EON changed the way people looked at Portable PA well over ten years ago as the all-purpose solution for instant sound reinforcement no matter where you are. And now, EON300 speakers put the next generation of EON systems within reach of an even broader range of users, delivering the same fundamental design features, sonic performance and integrated utility as the new EON500 series, at an even more affordable price.

EON305
TWO-WAY 15" PASSIVE LOUDSPEAKER SYSTEM
The EON305 is a lightweight loudspeaker system capable of full bandwidth reproduction at high levels, The EON305 is comprised of a 15-inch JBL woofer and a 1-inch neodymium high frequency compression driver. The system will handle 250W continuously and 1000W peak.

- 250 watt passive system with 1000 watt peak power rating
- 100(H) x 60(V) waveguide for uniform audience coverage
- NL4 and 1/4" input connectors
- Integrated M10 suspension points for easy rigging

EON315
TWO-WAY 15" POWERED LOUDSPEAKER SYSTEM
The EON315 powered speaker system is a complete self contained reinforcement system with the added benefit of a microphone pre-amp enabling direct connection of a dynamic microphone. The JBL transducers are driven by a 280W Class-D integrated power amplifier and the input section contains all cross-over functions, protection, and system EQ functionality.

- 280 watt powered 15" two-way speaker system
- 100(H) x 60(V) waveguide for uniform audience coverage
- Line level and direct microphone input capability
- Integrated M10 suspension points for easy rigging
PRX700 SERIES

POWERFUL. SCALABLE. VERSATILE.
For portable and install applications

The PRX700 Series represent an evolutionary step in the efficient use of amplifier power, rugged durability and enhanced versatility in a self-powered loudspeaker designed from the ground up to perform in the real world of sound reinforcement where challenging audio environments, high ambient noise levels and loud volumes are typical. They are the first systems to use our patented Differential Drive technology with ferrite magnets featuring high power, wide bandwidth and low distortion. Versatile, scalable, easy-to-transport and setup, the PRX700 Series use JBL’s tour tested technology throughout for a lifetime of reliable performance you can trust.

TOUR TESTED FOR A LIFETIME OF RELIABLE PERFORMANCE

- 1500 watt high performance Class-D amplifier technology
- JBL Differential Drive woofers
- DSP input section with crossover, dynamic limiting, and component optimization
- User selectable system EQ
- XLR-1/4” combination inputs, RCA inputs, and XLR loop-through
- Lightweight poplar plywood cabinets protected by JBL’s DuraFlex finish
- Integrated M10 suspension points for easy installation and setup
**PRX710**

10" POWERED TWO-WAY SPEAKER SYSTEM

PRX710 is the most compact and versatile speaker in the series. Designed to deliver maximum performance for its weight and size as a front of house main PA. The PRX710 is a perfect match with the PRX715XLF series subwoofer, offering a high performance self-powered sub/sat system.

- Normal and Boost user selectable EQ presets
- 100° x 60° nominal coverage pattern
- Integrated 36mm pole mount socket and M10 suspension points for easy setup

**PRX712**

12" POWERED TWO-WAY MAIN/FLOOR MONITOR SYSTEM

PRX712 is compact and versatile. It has been designed to deliver maximum performance as both a stage monitor and a front of house main PA. The PRX712 is a perfect match with a PRX715XLF or PRX718XLF subwoofer, offering a high performance self-powered sub/sat system.

- Main and Monitor user selectable EQ presets
- 90° x 50° nominal coverage pattern
- Integrated dual angle 36mm pole mount socket and M10 suspension points for easy setup

**PRX715**

15" POWERED TWO-WAY MAIN/FLOOR MONITOR SYSTEM

PRX715 offers the perfect balance between size and performance. Its asymmetrical design make this a perfect choice for musicians, entertainers and DJ's when portability is key, or when hung by the suspension points, an exceptional light-duty installation speaker. It is also a perfect match with the PRX715XLF or PRX718XLF subwoofer for a high performance full-range sound system.

- Main and Monitor user selectable EQ presets
- 90° x 50° nominal coverage pattern
- Integrated dual angle 36mm pole mount socket and M10 suspension points for easy setup

**PRX725**

DUAL 15" POWERED TWO-WAY MAIN SYSTEM

PRX725 is an optimal solution when simple setup and full bandwidth output at high levels is required. The dual 15" woofer design creates enough low frequency content to serve most live music or music playback situations. When coupled with a PRX718XLF the system becomes a high volume sound reinforcement solution, perfect for regional tour companies and AV Rental companies looking for a scalable, easy to employ audio solution.

- Normal and Boost user selectable EQ presets
- 90° x 50° nominal coverage pattern
- Integrated M10 suspension points for easy setup
PRX735
15" POWERED THREE-WAY MAIN SYSTEM
PRX735 is ideally suited to applications where the program material exhibits subtlety and nuance. Perfectly capable of reproducing high fidelity full range sound, when coupled with the extended low frequencies of the PRX718XLF, complete control over the entire audio spectrum is attained.

- Normal and Boost user selectable EQ presets
- 90° x 50° nominal coverage pattern
- Integrated M10 suspension points for easy setup

PRX715XLF
15" POWERED EXTENDED LOW FREQUENCY SUBWOOFER SYSTEM
PRX715XLF is an extended low frequency compact subwoofer designed and engineered to provide sub bass frequencies with accuracy and power. Used as a single sub in a sub/sat system or in multiples as part of a scalable large format sound system, the PRX715XLF performs with exceptional efficiency and control.

- 2 x XLR-1/4" combination inputs with 2 x XLR loop-thru
- Integrated stereo pass-thru with selectable HP filter and polarity reverse
- Integrated M20 threaded pole receptacle

PRX718XLF
18" POWERED EXTENDED LOW FREQUENCY SUBWOOFER SYSTEM
PRX718XLF is an extended low frequency subwoofer designed and engineered to provide sub bass frequencies with accuracy and power. Used as a single sub in a sub/sat system or in multiples as part of a scalable large format sound system, the PRX718XLF performs with exceptional efficiency and control.

- 2 x XLR-1/4" combination inputs with 2 x XLR loop-thru
- Integrated stereo pass-thru with selectable HP filter and polarity reverse
- Integrated M20 threaded pole receptacle
JRX200 SERIES
AFFORDABLE, RELIABLE, HIGH QUALITY SOUND

JRX200 delivers the performance and prestige JBL is known for at an affordable price point. To meet these conflicting design goals, we looked at every element of the speaker system design. We kept everything that makes a speaker perform and sound its best and eliminated things that don’t. With performance, value and popular price points, we are going to be building a lot of JRX200 speakers.

JRX212
TWO-WAY 12” PASSIVE LOUDSPEAKER SYSTEM
The JRX212 is a compact and low profile stage monitor with optimized performance in the critical mid-range. It also includes JBL’s dual angle pole socket for use as a front-of-house speaker.

• 250 watt passive system with 1000 watt peak power rating
• 90(H) x 50(V) waveguide for uniform audience coverage
• Includes monitor angle and dual angle 35mm pole socket
• Compression driver updated to 2414H-c for improved HF performance

JRX215
TWO-WAY 15” PASSIVE LOUDSPEAKER SYSTEM
The JRX215 is a trapezoidal 15” speaker system for use in live sound, dance music, and speech reinforcement. The speaker includes a dual-angle 35mm pole mount socket.

• 250 watt passive system with 1000 watt peak power rating
• 90(H) x 50(V) waveguide for uniform audience coverage
• Includes dual angle 35mm pole mount socket
• Compression driver updated to 2414H-c for improved HF performance

JRX225
TWO-WAY DUAL 15” PASSIVE LOUDSPEAKER SYSTEM
The JRX225 is a portable dual 15” two-way speaker system designed specifically for applications in live music performance and playback.

• 500 watt passive system with 2000 watt peak power rating
• 90(H) x 50(V) waveguide for uniform audience coverage
• Compression driver updated to 2414H-c for improved HF performance

JRX218S
18” PASSIVE SUBWOOFER SYSTEM
The JRX218S subwoofer is driven by a massive JBL 18” woofer with a cast frame. A top mounted cast aluminum 36mm pole mount receptacle facilitates the use of the JRX218S as a base for a mid-high speaker cabinet.

• 350 watt passive system with 1400 watt peak power rating
• Includes 36mm pole mount receptacle
• 18-gauge steel grille for protection
PRX400 SERIES
AFFORDABLE, PROFESSIONAL PERFORMANCE

PRX400 passive speakers were designed to provide the sensitivity, frequency response and power handling needed for almost any professional audio environment while still being reasonably priced. Whether you use a powered mixer or an equipment rack full of amps and signal processing, PRX400 passive speakers deliver the sound, power and bandwidth necessary to make loud music sound natural and even quiet speech intelligible.

PRX412M
TWO-WAY 12” PASSIVE LOUDSPEAKER SYSTEM
High performance utility and monitor speaker in one – used as both a stage monitor and a high performance satellite speaker. Features the dual angle pole mount allowing it to be mounted vertically or with a 10 degree down tilt.

- 300 watt passive system with 1200 watt peak power rating
- 90(H)x50(V) waveguide for uniform audience coverage
- Includes monitor angle and dual angle 35mm pole socket
- Includes M10 suspension points for easy rigging and available in white

PRX415M
TWO-WAY 15” PASSIVE LOUDSPEAKER SYSTEM
High performance utility and monitor speaker in one – used as both a stage monitor and a high performance satellite speaker. Features the dual angle pole mount allowing it to be mounted vertically or with a 10 degree down tilt.

- 300 watt passive system with 1200 watt peak power rating
- 90(H)x50(V) waveguide for uniform audience coverage
- Includes monitor angle and dual angle 35mm pole socket
- Includes M10 suspension points for easy rigging and available in white

PRX425
TWO-WAY DUAL 15” PASSIVE LOUDSPEAKER SYSTEM
An excellent choice when the application calls for high performance and simplicity. A pair of PRX425s is a complete sound system capable of reproducing bass and kick drum or playing high-level music in clubs.

- 600 watt passive system with 2400 watt peak power rating
- Dual 15” woofers for extended LF performance
- 90(H)x50(V) waveguide for uniform audience coverage
- Includes M10 suspension points for easy rigging

PRX418S
18” PASSIVE SUBWOOFER SYSTEM
Compact, high power subwoofer system containing a JBL Selenium 18” woofer in a front loaded vented enclosure. When combined with the PRX400 two-way models, it provides a sub/sat system capable of generating 135dB of full-range, high quality audio.

- 800 watt passive system with 3200 watt peak power rating
- Includes 36mm pole mount receptacle
- 16-gauge steel grille for protection
- Coated in JBL’s rugged DuraFlex finish
STX800® SERIES

HIGH PERFORMANCE, HIGH DENSITY SYSTEM SOLUTION

Total Performance

The STX800 Series embodies the Total Performance principle that drives JBL’s development of audio products that make a real difference in the world of professional audio. Their superb sonic performance is based on time tested JBL technology: high power handling transducers that deliver extremely low distortion, precision waveguides for precise pattern control, and intelligent cabinet architecture that is engineered for easy handling, minimal space displacement and rugged transport. And the appearance was sculpted to complement our high end VTX touring systems as well as our current PRX portable offerings. STX is VTX compliant with tunings available in Performance Manager and Crown ITHD power amplifiers.

DESIGNED WITH TIME TESTED JBL TECHNOLOGY

- Four full-range systems and two subwoofers
- High performance, high density system solution in a truck-pack friendly format
- High power handling transducers that deliver extremely low distortion
- Precision waveguides for precise pattern control
- All enclosures built with top quality birch/poplar plywood
- Compatible with Crown VRack and V5 level processing
- Integrated into JBL HiQnet Performance Manager

TRUCK PACK FRIENDLY

All STX800 Series cabinets were sized in an effort to maximize the interior compartments of most standard transport vehicles. Considerations were made to help STX owners exploit the given area in an effort to reduce fuel costs by eliminating additional vehicles or extra trips.
STX812M
12" TWO-WAY STAGE MONITOR
Designed specifically to be a high performance 12" two-way floor monitor, can also do double duty as a utility speaker for use on a tripod stand or over a subwoofer, utilizing a single-position pole mount. A 70° by 70° waveguide is utilized for precise coverage.

- 800 watt continuous power rating at 8 ohms
- 70 x 70 nominal coverage
- 3" neodymium magnet compression driver

STX815M
15" TWO-WAY SYSTEM
Single 15" lightweight two-way system designed as a high power handling, FOH loudspeaker system or as an extended range floor monitor. Offers an extremely high level of performance either ground, pole or stand mounted.

- 800 watt continuous power rating at 8 ohms
- 3" neodymium magnet compression driver
- Twelve M10 suspension points for easy rigging

STX825
DUAL 15" TWO-WAY SYSTEM
Designed for maximum impact, portability and ease of use. With a wide frequency range and broad 90° x 50° coverage, this speaker is ideal for bands or DJs as their primary PA, use as a side-fill on a concert stage, or as an install speaker in a dance club or performance venue.

- 1600 watt continuous power rating at 4 ohms
- 4" neodymium magnet compression driver
- Twelve M10 suspension points for easy rigging

STX835
DUAL 15" THREE-WAY SYSTEM
Slot-loaded dual 15" three-way system with horn-loaded mid and high sections, designed for full-range use in stand-alone applications or for use in high performance environments as the premier ground stack passive top box. The 60° x 40° mid and high frequency waveguides allow two cabinets to be splayed for wide angle coverage.

- 1600 watt continuous power rating at 4 ohms
- CMCD provides low midrange distortion, increased sensitivity and extended bandwidth
- Can be used in bi-amped or full-range passive operation

STX818S
SINGLE 18" COMPACT SUBWOOFER SYSTEM
Front-loaded, vented enclosure designed for minimum frontal area provides 1,000 watt of continuous pink noise power handling and 4kW peak. Comes equipped with a top-mounted M20 pole-mount and an optional wheel kit.

- 1000 watt continuous power rating at 8 ohms
- Large port area for reduced distortion
- M20 threaded pole socket for secure satellite speaker mounting

STX828S
DUAL 18" HIGH POWER SUBWOOFER SYSTEM
Front-loaded, vented enclosure designed for maximum low-frequency performance. Two drivers give 2,000 watts of continuous pink noise power handling with 8kW peak. Optional wheel kit.

- 2000 watt continuous power rating at 4 ohms
- Dual 18" Super Vented Gap woofers for extended low frequency output
- Rugged DuraFlex coating
VRX900 SERIES

HIGH PERFORMANCE CONSTANT CURVATURE LINE ARRAY

Extraordinary power handling, clarity and flexibility

The VRX Series addresses the growing need for a small format professional sound system for sound rental companies, fixed installations and musicians looking for the ultimate in performance and portability. Sharing components with the JBL VERTEC Series, the VRX series features the performance of high end line arrays in a compact format. Its affordable and flexible and provides outstanding coverage and output coherence, while delivering extraordinary power handling, clarity and flexibility.

STUNNING, LEGENDARY JBL SOUND

- Constant curvature line array system for an easy to use controlled, coherent coverage pattern
- High performance, lightweight neodymium Differential Drive Woofers
- Powered by high performance, ultra-compact Crown Class-D amplification
- Simplified rigging and quick connections ensure fast setup and takedown
- Constructed with premium birch plywood and coated in JBL’s rugged DuraFlex finish
- VRX Array Tool available for the user to understand and properly deploy the array
VRX915M
15" Two-Way Floor Monitor
Dedicated, compact and lightweight 15” two-way touring class floor monitor using JBL’s latest neodymium transducers.

VRX915M

- 800 watt continuous power rating at 8 ohms
- 50° x 90° nominal coverage
- 4” neodymium magnet compression driver

VRX928LA
8” Two-Way Compact Line Array Speaker System
Lightweight compact 8” two-way line array speaker system designed for use in arrays of up to six units. The ideal choice when line array performance is needed but the venue size doesn’t call for the very long-throw characteristics of the larger VRX932LA.

VRX928LA

- 400 watt continuous power rating at 8 ohms
- Includes switches for amplitude shading on each enclosure
- Available in white

VRX932LA-1
12” Two-Way Compact Line Array Speaker System
Lightweight compact 12” two-way line array speaker system designed for use in arrays of up to six units. VRX932LA-1 can be suspended in a single array for nominal vertical coverage up to 90 degrees or used on a pole over subwoofers.

VRX932LA-1

- 800 watt continuous power rating at 8 ohms
- Includes switches for amplitude shading on each enclosure
- Available in white

VRX932LAP
12” Powered Two-Way Compact Line Array System
Powered lightweight 12” two-way line array system designed for use in arrays of up to five units. Can be suspended in a single array for nominal vertical coverage up to 75 degrees or used on a pole over subwoofers.

VRX932LAP

- Powered by JBL DPC-2 amplifier module designed by Crown
- Includes rigging hardware for simple connection and dual angle pole socket
- Includes switches for amplitude shading on each enclosure

VRX915S
15” Compact High Power Suspending Subwoofer
Compact, high power suspending subwoofer system containing a 15” neodymium Differential Drive woofer in a front loaded, vented enclosure.

VRX915S

- 800 watt continuous power rating at 4 ohms
- Includes rigging hardware and M20 threaded pole socket
- Available in white

VRX918S
18” Compact High Power Suspending Subwoofer
Compact high power suspending subwoofer system using an 18” Differential Drive woofer in a front-loaded, vented enclosure. For applications requiring the sonic and practical advantages of integrating the subwoofers into the flying array.

VRX918S

- 800 watt continuous power rating at 8 ohms
- Includes rigging hardware and M20 threaded pole socket
- Available in white

VRX918SP
18” Powered High Power Suspending Subwoofer
Powered, suspending subwoofer system containing a neodymium 18” Differential Drive woofer in a front-loaded, vented enclosure. Designed specifically for use in arrays with the VRX932LAP line array speaker. Equally at home in ground stacked applications.

VRX918SP

- Powered by JBL DPC-2 amplifier module designed by Crown
- Includes rigging hardware and M20 threaded pole socket
- Large port area for reduced distortion
